

Chemical Emergencies

Hazmat Operations 5 DVDs plus Guide \$1,295

Operations level personnel are trained to respond in a defensive manner: respond to the emergency, assess the nature of the incident, notify other involved parties, request additional assistance, and implement defensive actions. This series teaches the core competencies required for certification at the Operations Level and helps set up a program to apply the lessons learned to your jurisdiction or facility. Modules available separately or as a series.

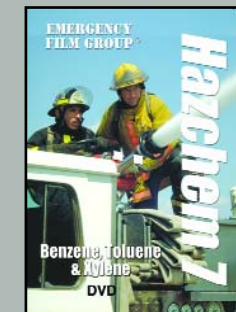

- Reconnaissance. \$275. Also available as Video-on-Demand.
- Hazmat Containers. \$275. Also available as Video-on-Demand.
