

Although best known for our video-based programs, Emergency Film Group also distributes a number of texts and software that are of interest to emergency responders. Order online at www.efilmgroup.com or call (800) 842-0999.

Terrorism Response

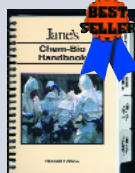

• **Handbook of Chemical and Biological Warfare Agents, 2nd ed.** by D. Hank Ellison. Goes well beyond the "dirty thirty" commonly discussed agents and provides rapid access to a wide range of agents that can be used as weapons. Rich with scientific data and provides information on the chemical, physical, and biological properties of these agents and their health effects. **\$134.95**

• **Special Operations for Terrorism and Hazmat Crimes** by Chris Hawley, Gregory Noll & Mike Hildebrand. Designed for emergency responders at the hazmat operations level who conduct tactical operations at crime sites where terrorism or hazardous chemicals are involved. **\$36.**

350 pages plus CD-Rom with supplementary exercise. **\$36.**

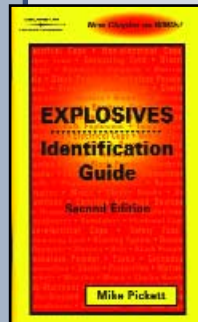

• **Jane's Chem-Bio Handbook.** Step-by-step information on critical treatment procedures in the aftermath of a chemical or biological weapons attack. Helps ID agents, delivery mechanisms, and how to respond. 308 pp. **\$44.**

• **Homeland Security Field Guide** by Informed. Pocket sized, with color-coded tabs to find the latest information for WMD and terrorism response. Covers terrorism basics, security planning, building security, and response for all types of facilities and emergency situations. 104 pp. **\$22.**

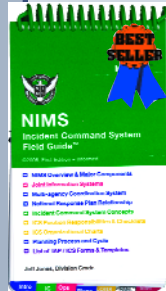

• **Jane's Unconventional Weapons Response Handbook.** Helps first responders recognize and respond to terrorist use of unconventional weapons. How to plan for, respond to & recover from incidents. 310 pp. **\$44.**

• **Explosives Identification Guide** by Mike Pickett. Helps the reader to recognize and handle the different types of commercial explosives and military ordnances. A color photograph insert and short descriptions identify explosives by general type and help the reader recognize and handle commercial explosives and military ordnances. Ideal for first responders who may have little experience with explosives. 64 pp. **\$32.95.**

Emergency Planning

• **NIMS Incident Command System Field Guide**, by Jeff Jones. This is an essential tool for every team member responding to any national incident that requires command coordination. It provides instant access to critical key points of the National Incident Management System. Useful at the local, state or federal level or in private industry. Also provides responsibilities and checklists for applying the Incident Command System (ICS). 112 pp. **\$22.**

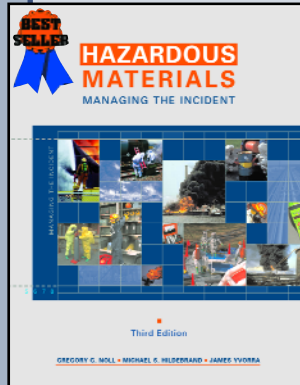

• **Emergency Responder's Guide to Railroad Incidents** by Greg Rhoads. Addresses the entire scope of railroad emergencies, including the hazards, safe operating procedures, and resources responders can apply to incidents. 226 pp. **\$29.95.**

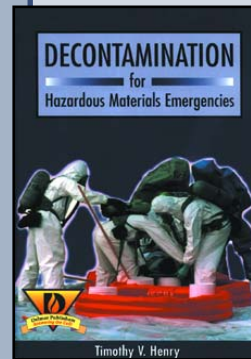

• **Emergency Planning**, by Ronald W. Perry. Examines the components of an emergency plan, principles that guide the planning process, and resources that can be used in the planning process. 520 pp. **\$63.95.**

Hazmat

• **Hazardous Materials: Managing the Incident, 3rd ed.** by Mike Hildebrand, Greg Noll & James Yvorra. Companion to *Hazardous Materials Managing the Incident* DVD series. A classic guide to dealing with hazmat incidents, it advocates a system that has been adopted by the National Fire Academy's Open Learning Program. Validated by IFSTA, this text helps responders meet the core competencies for Hazardous Materials Technician and Haz Mat On-Scene Incident Commander as outlined in OSHA 1910.120, and the educational competencies referenced in NFPA 472, 620 pp. **\$40.** Also available: *Instructor's Program CD-Rom*-\$50; *Student Workbook, 2nd ed.* (300 pp.)-\$20; & *Field Operations Guide* (176 pp.)-\$28.

• **Decontamination for Hazardous Materials Emergencies** by Timothy Henry. This book focuses on the decontamination aspect of hazmat response. It brings together facts about chemical contamination gathered over the last 10 years and presents them to the reader in a simple "street-wise" way. 80 pp. **\$31.95**

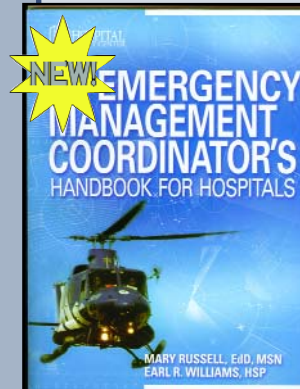

• **Hazardous Materials Air Monitoring & Detection Devices, 2nd ed.** by Chris Hawley. A thorough guide to effective air monitoring in emergency response. 134 pp. **\$89.95.** Free with purchase of the series, *Air Monitoring.*

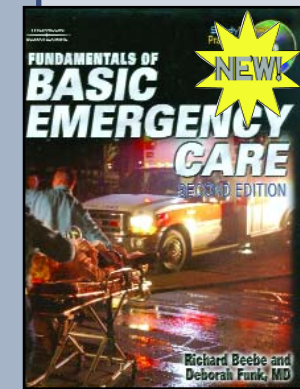

• **Hazardous Materials Chemistry** by Armando S. Bevelacqua. Emphasizing the decision-making process during hazmat emergencies. 192 pp. **\$64.95.** Also available: *Instructor's Guide on CD-Rom*-\$182.95. *Study Guide*: \$30.

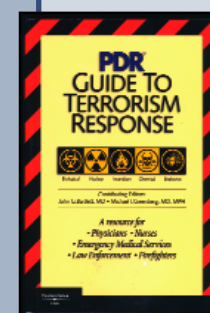

Emergency Medical

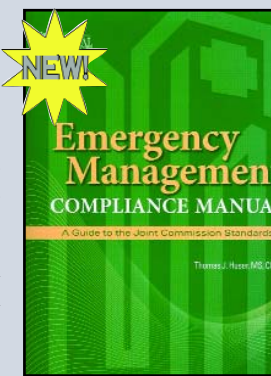

• **The Emergency Management Coordinator's Handbook for Hospitals,** written by Earl R. Williams, HSP. This book/CD-Rom set is the definitive resource for your hospital's constantly changing emergency management needs. This easy-to-use reference outlines the fundamental processes central to emergency management and offers strategies on how to meet the latest standards and regulations. 152 pp. **\$129.**

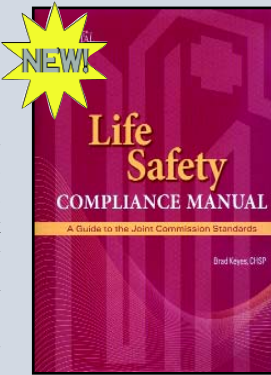

• **Fundamentals of Basic Emergency Care, 2nd ed.,** by Richard Beebe & Deborah Funk. This dynamic text brings the challenging work of an emergency medical technician to life. Step-by-step skill presentations & real stories from EMTs tie the material together. "Street Smart" tips from veteran EMTs provide advice and perspective. 1,120 pp. **\$93.95.**

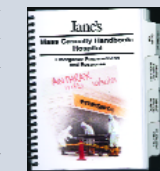

• **The PDR Guide to Biological and Chemical Warfare Response.** This fundamental reference that will arm you with the essential facts you need to cope with over 50 of the most likely biological or chemical agents. Outlines the telltale signs and symptoms of exposure and summarizes appropriate clinical response. Drawn from toxicological data maintained by Micromedex and based on the most current medical literature. 404 pages. **\$41.95.**

• **Emergency Management Compliance Manual: A Guide to the Joint Commission Standards,** written by Thomas J. Huser, MS, CHSP. This manual helps you cut through the confusion and provides best practices to help meet the 2009 EM standards. Provides guidance in developing emergency management and operations plans. A bonus CD-Rom contains electronic versions of all forms and tools. 135 pp. **\$229.**

• **Life Safety Compliance Manual: A Guide to the Joint Commission Standards,** written by Brad Keyes, CHSP. This manual is your solution to understanding the Joint Commission's newest life safety standards. The chapter regarding healthcare occupancies now includes 10 standards and more than 100 elements of performance. A bonus CD-Rom includes a crosswalk of the 2008 vs. 2009 changes to help you understand the changes and stay in compliance. Also included are completely customizable electronic versions of all forms and tools listed in the Manual. 135 pp. **\$229.**

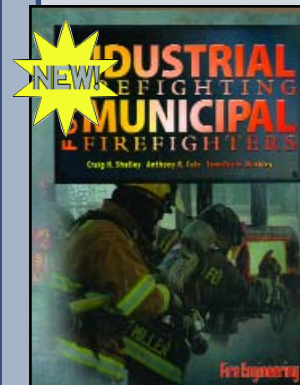

• **Jane's Mass Casualty Handbook: Hospital.** Provides guidance to healthcare facilities developing emergency management capabilities, including an effective and robust Emergency Operations Plan. 343 pp. **\$36.**

• **Jane's Mass Casualty Handbook: Pre-Hospital.** Identifies critical planning issues & response considerations. Practical, cost-effective guidance to the entire pre-hospital system. 372 pp. **\$36.**

Fire/Rescue

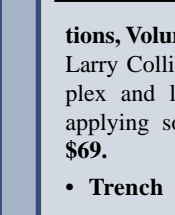

• **Industrial Firefighting for Municipal Firefighters,** by Craig Shelley, Anthony Cole & Timothy Markley. Written to specifically prepare the municipal firefighter for responses to a wide range of industrial fires. Provides a knowledge base for pre-incident planning and offers a better understanding of the industrial processes that may be encountered. 370 pp. **\$49.**

• **Confined Space Rescue** by Chase Sargent. Valuable training on procedures and equipment for a confined space incident, written by a foremost authority. This book is critical for anyone who might some day need to participate in this challenging technical rescue discipline. 244 pp. **\$39.**

• **Technical Rescue Operations, Volume I: Planning, Training & Command** by Larry Collins. Lays the framework for responding to technical rescues & disasters of all types in the safest and most effective manner. 254 pp. **\$69.**

• **Technical Rescue Operations, Volume II: Common Emergencies** by Larry Collins. Explains how to handle complex and large-scale rescue operations by applying solid rescue principals. 365 pp. **\$69.**

• **Trench Rescue** by Buddy Martinette. Walks the reader through all aspects of trench rescue. Covers decision making at the rescue site, soil physics, types of collapse, equipment & tools, and much more. 264 pages. **\$55.95.** Free with purchase of DVD "Trench & Excavation Rescue."
