

EMERGENCY MEDICAL

Hazmat/WMD Awareness. Learn the competencies for Awareness Level personnel. Designed for those who may be first on the scene of a hazardous materials or terrorist incident. **DVD plus Leader's Guide. \$425.** Available as online training.

Mass Decon. Implement decontamination at terrorist and other mass casualty incidents when speed & efficiency are vital for the survival of victims and protection of the community. **DVD plus Leader's Guide. \$425.**

Triage. (Coming Soon!) Examines hospital and pre-hospital triage systems with special emphasis on conditions that complicate triage activities during hazardous materials, WMD, or other mass casualty incidents. **DVD plus Guide. \$425.**

Terrorism: Biological Weapons. Recognize and respond to anthrax and other bioterrorism attacks. Describes 3 possible scenarios. Updated in 2007. **DVD plus Instructor's CD-Rom with Powerpoints. \$450.**

Terrorism: Medical Response. Prepare personnel in the medical community to be proactive in planning for and responding to a terrorist incident. **DVD plus Leader's Guide. \$450.**

Active Shooter: Rapid Response. Compelling training that combines realistic training scenarios with footage of actual mass shooting events. **DVD with bonus 5-minute segment on "Tactics" plus Instructor CD-Rom. \$425.**

Hazardous materials and weapons of mass destruction present a different set of training and preparedness issues for EMTs and emergency department staff.

Onsite training at your hospital!

Emergency Film Group has teamed up with some of the country's top trainers to provide hands-on HICS and hazmat training at your facility. These trainers can teach personnel to safely and effectively address hazardous materials incidents at hospitals, clinics, and other healthcare related locations. Courses are hands-on and utilize an innovative approach to adult education that increases understanding and retention. Focus is on preparedness & response. Courses can be customized to meet your training, planning & exercise requirements.

This training incorporates the key elements of the OSHA's Hazwoper Standard, the First Responder Awareness and Operations curricula and the hospital-specific components found in the "OSHA Best Practices For Hospital-Based First Receivers of Victims From Mass Casualty Incidents Involving The Release of Hazardous Substances." Pricing is all-inclusive, and much less than the cost of sending personnel off-site for training.

Here are some of the classroom courses available:

- 1st Responder/Receiver Awareness Level (4 hours)
- 1st Responder/Receiver Operations Level (12 hours)
- 1st Responder/Receiver Operations Level Train the Trainer (8 hours)
- HICS Fundamentals (8 hours)
- Hospital Response to Small Spills (8 hours)

Hospital First Receiver Series

4 DVDs plus Leader's Guide. \$1,395

Eight hours of training (2 hours of video) prepares First Receivers to recognize the signs of contamination and initiate actions to protect themselves, patients and the facility. This training meets the Joint Commission's accreditation standards for decontamination and emergency planning. More than 250 series already being used in 42 states and countries by organizations that include the Centers for Disease Control, VA Medical Centers, and university medical centers. Also available separately:

- **Recognizing Contaminated Patients. DVD. \$395. Available as online training.** A stand-alone program as Awareness Level training for all hospital staff, reviewing decontamination issues.
- **Hospital Incident Command System. DVD. \$395. Available as online training.** This module covers ICS, NIMS and the hospital and describes the roles and responsibilities of key players in a response.
- **Self Protection. DVD. \$395. Available as online training.** Reviews NIOSH, NFPA, OSHA, and EPA regulations and standards for protective clothing and respiratory protection.
- **Patient Decontamination. DVD. \$395. Available as online training.** This module explains the importance of decontamination and using safe work practices to avoid exposure.
