

"Training tools for an increasingly complex and dangerous job"

www.efilmgroup.com

Copyright 2002, Detrick Lawrence

When a hazmat incident occurs, it may be necessary to carry out an investigation. A good investigation will determine what happened and why, and becomes a learning tool to improve performance and save resources.

Hazmat Investigations is a two-part DVD series of designed for supervisors, safety officers, emergency management, and fire and plant personnel who may - as a part of their job - be called upon to carry out investigations of incidents in which there is property damage and/or injury. Produced in association with the International Fire Service Training Association, the series will help facilities and personnel comply with federal regulations and national standards, including NFPA 1500, Fire Department Occupational Safety & Health Program and OSHA's Process Safety Management of Highly Hazardous Chemicals standard.

The package includes two booklets written by Ludwig Benner which provide a description of the knowledge, methods and tools used to conduct a hazmat investigation.

About "Introduction to Investigations"

The first module, "Introduction to Investigations," outlines a systematic approach to the investigative process, showing how to interview witnesses, examine the scene, gather and maintain evidence, write reports and conduct fol-

low-up activities. This film provides information that is fundamental to all types of investigations, and is the foundation of the second film. 28 minutes.

About "HazMat Investigation"

The second module tells how to carry out investigations of hazardous materials leaks, spills and explosions. It teaches how to recognize the presence of hazardous materials at an incident scene, and discusses failure of containment systems. It also explains the need for scene security and personnel protective clothing and equipment. Other topics covered include use of instrumentation, obtaining assistance, and reporting requirements. 20 min.

About the Technical Committee

Emergency Film Group programs are created with the assistance of authorities in the subject field. Technical committee members for Investigations include:

Ludwig Benner, President of Ludwig Benner & Associates, a firm specializing in investigation.

Ed Comeau, Writer-tech.com . Ed is a technical writer and publisher of *Campus Firewatch*, a newsletter that focuses on campus fire safety.

Jan Dunbar, Battalion Chief, Sacramento (CA) Fire Dept. (ret.) He has served as Chairman of the California

State Fire Marshal's committee to develop a hazardous materials specialist course

Scott Kerwood, Chief, Sni Valley (MO) Fire Protection District

About the filmmakers

Gordon Massingham, director. For over 25 years one of the world's leading creators of emergency response training. Winner of more than 130 national and international awards.

Jane Christopher, producer and editor. Well known to emergency response audiences for programs, Jane has received several awards for filmmaking excellence.

J.B. Lamont, senior editor. J.B. is manager of the Avid non-linear editing suite at EFG. His work has been seen on NBC, ESPN, and many cable outlets.

About the Emergency Film Group

Emergency Film Group, a division of the Detrick Lawrence Corp., was established to distribute quality training films for emergency response and right to know education. Firmly committed to accuracy, EFG uses the best qualified advisors and production crews to ensure that programs are not only exciting to watch, but are also accurate in every detail.

EFG's worldwide list of customers range from the largest petrochemical companies, to government agencies, to small town fire departments. Every film comes with EFG's 30-day money-back guarantee if the customer is not satisfied.
